**DETAILED ACTION**

***Status of the Claims***

1. This action is in response to the preliminary amendment on July 7, 2004. Claims 16-61 are pending, which are newly added. Claims 1-15 are canceled.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 16-31 and 37-44, drawn to using clock and delay circuits in a memory device, classified in class 713, subclass 400.
  - II. Claims 32-36 and 45-54, drawn to registering a latency period, classified in class 716, subclass 6.
  - III. Claims 55-57, drawn to phase compensation circuit, classified in class 363, subclass 1.
  - IV. Claims 58-61, drawn to memory access, classified in class 711, subclass 100.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as clock receiver and delay locked loop circuit; invention II has separate utility such as registering latency period; invention III has separate utility such as phase compensation circuit; invention IV has separate utility such as accessing memory core.

See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete **must include an election of the invention to be examined** even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
